Professional summary

UI/UX Designer and M.Des student with a Computer Engineering background, skilled in user research, user flows, wireframing, prototyping, and UI design. Experienced in designing user-centered digital experiences using Figma and translating research insights into simple, intuitive interfaces. Currently working on projects spanning travel, culture, transportation, and accommodation.

Skills

UX Design: User Research, User Flows, **Wireframing**, **Prototyping**, Usability Testing

Tools: Figma, VS Code, Visual Studio

Frontend: HTML, CSS, JavaScript

Programming: Python, C++, JavaScript

Experience

UI/UX & Web Development Intern - WR Team

Bhuj-Kutch, India | January 2025 – June 2025

- Designed responsive web interfaces using HTML, CSS, and JavaScript, creating user-focused layouts with an emphasis on usability, responsiveness, and visual consistency.
- Applied core UI/UX principles and responsive design practices to improve website interfaces and deliver better user experiences.

Projects

Apna PG - PG-Finding Platform

- Conducted user research and identified key pain points in the PG (paying-guest) accommodation search process.
- Created user flows and wireframes for a transparent PG-finding solution featuring verified listings, reviews, and cost breakdowns.

Kids Transportation Booking App

- Designed and developed a safe, user-friendly kids transportation app centered on secure travel.
- Built features for live tracking and driver verification to increase parent trust and safety.

History & Culture Map (Ongoing)

- Designing a map-based travel app combining navigation, historical information, and nearby heritage sites.
- Integrating cultural discovery features into one seamless, exploratory user experience.

Education

Master of Design (M.Des)

Indus University | 2026 – 2027 | CGPA: 9.17

Bachelor of Technology, Computer Engineering

Marwadi University | 2025 | CGPA: 6.33
